

OPIOID ADDICTION RESOURCES

Opioid addiction is an increasing problem in our community. The number of people seeking treatment from both Addictions Response Services at Kahnawake Shakotiiatakehnhas Community Services and at the Kateri Memorial Hospital Center has been on the rise over the past few years. Our local pharmacists are also assisting clients with Drug-Replacement Treatment and Medication Assisted Treatment process to ensure the health and safety of our community.

People abuse substances for various reasons. It is important to know that help and treatment are available inside the community or within the surrounding areas. If you would like to seek services or get information, here is a list of contacts.
